Team Work

MFT Group Bd Organization Chart

Social / Environmental / Technical Compliance, Merchandising

Sourcing, Product Development and Merchandising :

- Source and develop new supplier based on product nature and requirements.
- Product development based on customer's choice and requirement.
- Ensure and build up good relationship with existing and new suppliers.
- Supplier allocation based on Product design and performance requirements, Country that is specialist in the products, Supplier performance, Lead-times for development and production, Capacities available, Social & Technical compliance.
- Research and establish potential suppliers for new products.

Shipping :

This department consist 4 members and they are closely monitoring shipping line, Freight forwarder, vessel booking etc.

Technical Support :

We have textile graduate Engineers whose job is to guide the factory from the selection of the yarn till to finishing of the fabric and guiding the factory in everyday's trouble shooting to get the proper fabrics, garments fits.

Washing Development :

As per market requirement has developed all type of fancy washes like, Enzyme wash, Stone wash, Bleach wash, Tinting, Over dyeing, Sandblasting, Scraping, Whickering, Destroy, Grinding, Tagging Crinkle, Resin, PP etc. Also keeping in mind the environmental problem new plant has started with full water treatment plant.

Quality Controlling System

We have a quality controlling team who visits factories on regular basis and when a new order goes in to production, they are stationed in the factory on full time basis in order to ensure that the lines are well set and buyers' quality standards are maintained. We do a TOP sample from the actual bulk materials and our quality controller thoroughly inspect this sample for its specifications and pass the same to the Merchandiser concern to double check on all the materials and other construction details, and then same goes to the hand of top Management and everybody sign off this sample with their approval or comments. We follow this procedure to ensure there is no mistake made in the product and if there is, we find it early and take corrective measures. We conduct regular inline inspection at AQL 2.5 mostly and the report is distributed among everybody involve in the factory and in our Office.

IMAGE OF CAD AND R&D DEPARTMENT :

We have our Cad department in Experienced technical personals are engaged there in order to make correct consumption

BIONIC
FINISH[®]ECO

A pair of folded blue jeans is the central focus of the image. The jeans are folded in a way that shows the waistband, which has a small black label with the word 'MultiTEX' in white. The denim is a medium blue color with visible stitching and some wear. The background is a textured, painterly style with shades of blue and white, giving it a soft, ethereal feel. The overall composition is centered and balanced.
